

Athraa Mosawi

GRAPHIC DESIGNER - WEB DEVELOPER

EXPERIENCE

- Iraq Brand Coordinator - Iraqi Innovators (2020 - Present)
a social good startup with a mission to change the narrative about Iraq.
I'm responsible for the designs, sales and marketing of social media pages, finding ways to increase sales and managing the Iraqi Innovators Store.
- Graphic Designer - Iraqi Training Center (2018 - Present)
I work as a graphic designer at an Iraqi training center on a part-time basis, designing media products such as magazines, labels, social media advertising and signage.
- Web Developer - Freelance (2017 - 2020)
I worked as a freelance web developer to utilize my skills in this area, and due to the lack of job opportunities in our country for women in this field, I spent a lot of time on self-development and learned how to code in other languages, such as Python and Javascript.

EDUCATION

- BSc Computer Science - University of Kufa (2014 - 2018)

During my BSc Computer Science studies, I had the opportunity to express my passion for programming and its ability to facilitate people's lives. I proactively took part in several individuals and group projects, creating a blood donation website using HTML, CSS, and JavaScript, a financial conversion application using Visual Basic, and many other projects that included physical computing through programming the Arduino microcontroller.

VOLUNTEERING

- Google Developers Group Organizer - Najaf (2018 - Present)

I have been an organizer for GDG in Najaf, Iraq, for 3 years. This work has included organizing tech events; collaborating with sponsors, venue managers, other speakers, volunteers, and people working on logistical and managerial levels.
- Women Techmakers Ambassador - Najaf (2018 - Present)

Google's Women Techmakers program provides visibility, community, and resources for women in technology. I'm a community leader in my city, working on organizing tech events especially for women, to break the societal traditions about Iraqi women.

ABOUT ME

I'm an ambitious graphic designer with an eye for detail. I take great pride in the quality and presentation of my work, and have worked in a variety of projects in a range of sectors. I love turning creative ideas into reality and putting in design touches that have lasting effects. This ranges from social media posts to full company branding as well as magazine designs.
